

Special Education

Mission Statement:

The vision of the Menomonee Falls High School Special Education Department is that all students can achieve and therefore our Mission is to work in collaborative partnerships with parents, fellow educators, and the community to provide services that empower students and promote the highest degree of independence, so each student may become an active member of society based on their individual strengths and abilities, and are prepared for post high school success.

To ensure the least restrictive environment and the most appropriate education possible, all students with identified disabilities will be included in regular education classes, except when individual needs - as outlined in the Individual Education Program (IEP) -require Special Education course development. Special education courses aligned with the high school curriculum may be offered on an as-needed basis and will be determined by the individual student's IEP, the subject matter, and other factors.
